5.5.4 Wireframe for Operator Role

W. 01 Operator - Dashboard

The wireframe illustrates the 'Operator - Dashboard' interface. It features a left-hand sidebar with a navigation menu containing 'Railly Command Center', 'Dashboard', 'Live Alerts', 'Reports', 'User Management', 'Shift Management', and 'Settings'. At the bottom of the sidebar are fields for 'Username' and 'Role'. The main dashboard area is titled 'Dashboard' and includes a 'Date Range' selector and a 'Filter by date' checkbox. Below these are four summary cards: 'PENDING ALERTS', 'VERIFIED', 'CAMERAS ONLINE', and 'AVG RESPONSE'. The 'Recent Alerts' section follows, with a 'Date range' selector and a table of alerts. Each alert entry includes fields for 'TrainID', 'CoachID', 'Line', 'Station', and 'Status'. The table has two columns, each with a 'Status' header and a 'Date Time by User' header. Below the table are two more rows for 'TrainID', 'CoachID', 'Line', 'Station', and 'Status'.

W.02 **Operator - Live Alerts**

The wireframe illustrates the 'Live Alerts' interface for an Operator role. It features a sidebar on the left with navigation links: Railly Command Center, Dashboard, Live Alerts (selected), Reports, User Management, Shift Management, and Settings. The main content area is titled 'Live Alerts' and includes a placeholder text. Below the title, there are six status filters: Pending, Verified, Escalated, En Route (highlighted), Resolved, and Dismissed. A secondary row of filters includes All, Pending, Verified, Escalated, En Route, Resolved, Dismissed, All Sources, All Lines, and All Stations. The central area contains a table with columns for TrainID, CoachID, Line, Station, and Status. The right sidebar, titled 'Alert Detail (Incident ID)', contains a Source section with a placeholder image, input fields for Train ID and Coach ID, a Line input field, and input fields for Station and Time. Below these are sections for Passenger Comment and Audit Trail, which includes a table with columns for Status by User and Time.

Figure 118 Wireframe for Operator Role ()

W.04 Operator - Reports & Analytics (Incident Reports)

The wireframe shows a web interface for 'Reports & Analytics' under the 'Operator' role. On the left is a sidebar with navigation links: Raily (Command Center), Dashboard, Live Alerts, Reports (selected), User Management, Shift Management, and Settings. At the bottom of the sidebar are fields for Username and Role. The main content area is titled 'Reports & Analytics' and includes a sub-header 'Incident Reports'. It features a search bar with the placeholder 'Search ID, train line, operator...' and several filter buttons: 'All Statuses', 'All Sources', 'All Lines', and 'All Trains'. There is also an 'Export CSV' button and a 'Date' selector. Below these is a table titled 'All Incident Reports' with columns: INCIDENT ID, TRAIN ID (Coach ID), LINE, DATETIME, SOURCE, and STATUS. The table contains three rows of placeholder data. At the bottom right of the table are pagination controls: 'Prev', '1', '2', and 'Next'.

Figure 120 Wireframe for Operator Role ()

W.05 Operator - User Management

The wireframe shows a web interface for 'User Management' under the 'Operator' role. On the left is a sidebar with navigation links: Raily (Command Center), Dashboard, Live Alerts, Reports, User Management (selected), Shift Management, and Settings. At the bottom of the sidebar are fields for Username and Role. The main content area is titled 'User Management' and includes a sub-header 'User Management'. It features a search bar with the placeholder 'Search' and two filter buttons: 'Download Template' and 'Upload Users'. Below these are three input fields for 'SEARCH', 'ROLE', and 'STATUS'. The main content area contains a table with columns: USER DETAILS, ROLE, JOINED, STATUS, and ACTIONS. The table contains seven rows of placeholder data, each with a 'Status' dropdown and two 'Action' buttons. At the bottom right of the table is a 'Lorem ipsum dolor' placeholder.
